35	Refuse/Garbage		
36	Permit		
37	Plan Check		
38	Food Safety Cert		
39	Signs		
40	Other		

18- Clean beverage dispenser, especially under nozzle heads, to remove sticky residues. Clean prep table under beverage dispenser to remove dusty residues.
25- Observed (plain) drinking water dispenser on beverage machine to be operational and our records indicate that no quarterly water samples have been submitted to this Department. The beverage dispenser shall be modified so as not to dispense plain drinking water by 7-9-07. If this establishment continues to dispense plain drinking water at the beverage dispenser then all applicable water requirements must be met for a Transient Non-Community water system.
29- Observed two wood 'patches' on bar. Properly repair.
31- Clean floor under tables to remove debris. Properly repair gaps in drywall behind beverage dispenser.

Note: Water heater adjusted and hot water at bar utensil sink 120+°F.

Note: Reported that beverage dispenser may be removed and only limited canned/bottled beverages would be provided to customers. By providing only limited canned/bottled beverages, this facility would no longer require a Permit to Operate a food establishment or subsequent routine inspections. This Department would continue to handle any public health related concerns/complaints. Contact this Department for an inspector to verify the removal of the beverage dispenser.

Note: For questions regarding the water, contact the Water System Inspector at the Oroville office (538-7282).

Reinspection fees will be charged for all subsequent reinspections unless an acceptable corrective time schedule has been submitted and approved by this Department. If, for any reasons beyond your control, you cannot correct the indicted violations by the next scheduled time, call this office prior to the inspection day.
