

Butte County Clincher® CA Permit Conditions for 2011

General Conditions:

- A permit must be obtained from the Butte County Agricultural Commissioner for any use of Clincher® CA in Butte County.
- **A 48 hour Notice of Intent** must be filed with the Butte County Department of Agriculture prior to the application of Clincher® CA.
 - **For applications within one mile (1) of commercial peaches/nectarines.** The NOI will only be valid for **ONE (1) DAY**. Growers/PCO's must specify the intended day of application. If the application is not completed or postponed, a **NEW NOI MUST BE FILED**.
- Only Adjuvants approved by DowAgro Sciences may be used with Clincher® CA.
- All Requirements of the Food and Agricultural Code and Title 3, California Code of Regulations that apply to the use of restricted materials shall apply to the use of Clincher® CA under permit in Butte County.
- Refer to product labeling for additional requirements.

Aerial Application:

- **Aerial applications of Clincher CA® will only be allowed in the Clincher CA® Aerial Spray Zone within Butte County (refer to the 2011 map).**
- Planes and pilots must be certified through Dow AgroSciences prior to making applications of Clincher CA® within the Butte County Aerial Spray Zone.
- Use only spray adjuvants on the Dow AgroSciences approved list and water. No other material may be used in the mix solution.
- Apply using fixed wing aircraft only.
- Wet booms must be fitted with flat fan 4015 or 4020 nozzle spray tips (unless Dow AgroSciences tests allow otherwise) set at zero degrees deflection.
- Wind restrictions: Clincher CA® aerial applications shall only be made with a minimum wind speed of 3 mph and a maximum wind speed of 7 mph. Wind measurements shall be measured at four (4) feet above the crop.
- Maximum application height above the canopy is 10 feet.
- Do not apply when the temperature is greater than 85 degrees.

Ground Application:

- All Pest Control Operators (PCO's) and Private Applicator's using ground application equipment must attend a Clincher® CA stewardship training program provided by Dow Agro Sciences prior to any application of Clincher® CA
- Wind restrictions: Do not apply Clincher® CA when wind speeds are greater than 10 mph measured at four (4) feet above the crop.
- The following Distance Restrictions are required between sensitive crops and rice fields to be treated with Clincher® CA:
 - Within 660 feet of peaches and nectarine – **no application.**
 - At least 660 feet away from, and up to 1320 feet of peaches and nectarines – **Apply with wind away.**
 - More than 1320 feet away from peaches and nectarines – **no wind directional restrictions.**
 - Within 50 feet of non-target cereal and grass crops such as corn, sugar cane, sudangrass, sorghum, grass grown for seed, and sod farms – **no application.**
- Follow label requirements for ground application equipment specifications.
