

Esplanade House
Child Development Center
Community Action Agency of Butte County

Gloria Rodgers, Program Operations Director
Cheli Whetworth, Child Development Center Coordinator

The Child Development Center collaborates with Head Start to provide age appropriate curricula to infants, toddlers, and preschool children whose families reside at the Esplanade House. Families who enter the expanded Transitional Shelter program are able to enroll their children in onsite childcare. This allows struggling parents more opportunities to participate in programs that can lead to their self-sufficiency.

Children enrolled in the program receive initial developmental screenings and on-going assessments. If children are identified or suspected of a developmental delay or having other special needs, a process begins that leads them to appropriate services.
