CAL FIRE's Magalia Nursery Staff Gets Helping Hand From Local Club Members

Magalia – The Magalia Beautification Association will be at the California Department of Forestry and Fire Protection's Magalia Reforestation Center located at the end of Steiffer Road in Magalia the morning of Friday, February 5th from 9:00 a.m. until noon. The association members will be sorting and grading seedlings, helping cull those that don't meet quality standards, and packaging and potting the rest for sale to the public.

"We always look forward to participating in the nursery's event," stated Magalia Beautification Association President, Jill Wallace. "It is an educational opportunity to gain insight into the reforestation process. At the end of the day, we have a better understanding of CAL FIRE's dedication to sustaining nature's beauty and we feel great about being a part of that mission."

"We truly appreciate the time and effort that this group gives to our project." stated Forester Dave Derby. "It is a wonderful community partnership that benefits the entire state."

The media are invited to attend the event. The sorting barn is located straight back from the main entrance on the right. A light jacket and rubber or work boots are recommended.
