

Get Help. Get an Online Tutor. Find a Resource 24/7.

Help for All Ages

K-12 students, college students and adult learners can use the service.

Online Tutoring for All Subjects and Levels

Professional tutors are available to help with all math, science, social studies and English subjects—from elementary to advanced levels.

You and your tutor work one-to-one in a secure, online classroom and everything is anonymous.

You use an interactive whiteboard, file sharing and instant messaging to work through your problem.

Tutor.com Classroom - Windows Internet Explorer

Y1 = X + 1
Y2 = -X + 5

$Y_1 = Y_2$
 $X + 1 = -X + 5$
 $2X = 4$
 $X = 2$
 $Y_1 = X + 1 = 2 + 1 = 3$
 $(2, 3)$

Lynne R (Tutor): You're right! So we can find the intersection by finding the point where X and Y are the same for both?
Lynne R (Tutor): That's right! Do you know how you can tell that the two lines will eventually intersect?
You: Yup. If the slopes are the same. They are parallel. If they are different, they have to intersect somewhere.
Lynne R (Tutor): Excellent! You are correct. Great Job!
Lynne R (Tutor): You got it!

"Yes very helpful when you're my age. It's been a long time since I have had algebra. Back in school again for a better career. Thanks for the help."
