

CAMP FIRE RECOVERY: SEPTIC REPAIR AND REPLACEMENT GRANT PROGRAM

BUTTE COUNTY is offering grants to eligible property owners to assist in the repair or replacement of septic tanks damaged or destroyed by the Camp Fire.

DESCRIPTION

The *Camp Fire Recovery: Septic Repair and Replacement Grant Program* aims to assist Camp Fire survivors in the unincorporated area repair or replace septic systems damaged or destroyed during the fire or subsequent emergency clean up. Grants of up to \$17,000 may assist property owners, who were uninsured or underinsured at the time of the fire, complete their rebuild through septic system repair or replacement.

ELIGIBLE SEPTIC REPAIR AND REPLACEMENT PROJECTS

- septic tank repair including dosed systems and engineered systems;
- septic tank replacement including dosed systems and engineered systems; and
- increased capacity for full replacement of a septic system.

ELIGIBLE PROPERTY OWNERS MUST:

- Submit a septic repair or replacement permit application to Butte County Environmental Health in conjunction with a building permit for a residential structure damaged or destroyed in the Camp Fire.
- Have owned the property on November 8, 2018 (some provisions may be possible for tenants who resided on the property on November 8, 2018 and now own the property.)
- Provide proof of insurance as of November 8, 2018 if applicable. Uninsured and underinsured property owners are eligible to receive grants.
