Meeting ID: 843 5364 8421

Passcode: 428997

One tap mobile: +16699006833,,84353648421# US (San Jose)

Meeting Agenda

1) Self-Introductions: Josh Pack, Paula Daneluk, Paul Gosselin, Peggy Moak (committee members)

- Invited guests: Danielle Nuzum, Meegan Jessee, PGE Representative
- Public participants: open

2) Approval of Minutes for prior meetings: March 1, 2021

3) Discussion of Forest Service letter requesting feedback or any concerns the County of Butte may have for the consequences of PGE planned removal of transmission lines in the Feather River Canyon. One point mentioned is that the transmission lines dated 1921 have historical significance, and they broadly reference nine cultural resources, for which PGE intends there to be no impact from this project, They provided us with maps showing the locations of the lines and the helicopter landing sites, but there was no information regarding the following possible concerns: (see attached letter and maps)

Possible areas of concern:

- Timing of project and any road closures affecting travel and/or recreational use during that time
- Abandoned PGE Right of Way and access roads – how is that being handled?
- Future recreational use of PGE roads in the LNF/PNF
- Future Maintenance of County/Forest Service roads formerly seeing frequent maintenance effort by PGE
- Water Quality/Erosion concerns for roads that are not planned to be maintained for recreational use by the USFS
- Any other concerns?
