Control Burns Scheduled for Wildland Fire Investigation Training

Butte County – CAL FIRE/Butte County Fire Department will stage several small control burns near the Oroville airport next week on Monday, June 12th and Tuesday, June 13th. The fires will occur late morning through early afternoon.

“These live burns will help firefighters identify the environmental factors of wildland fire behavior that affect the start and spread of fires and help recognize situations that indicate problems or extreme fire behavior”, stated Patrick Purvis, Training Bureau Chief.

Smoke from these control burns will be visible by the residents and business in the area of the Oroville Airport and Oroville Industrial Park.
