Be Informed

Learn Severe Weather Terms

Watch: “Be aware.” Conditions are favorable for the development of severe weather which could impact fires.

Warning: “Take action.” Weather conditions pose a threat to life or property. Potential for critical fire behavior.

Learn Evacuation Terms

Evacuation Warning: Alerts people in an affected area(s) of potential threat to life and property. People who need additional time should consider evacuating at this time. An Evacuation Warning considers the probability that an area will be affected and prepares people for the potential of an Immediate Evacuation Order.

Immediate Evacuation Order: Requires the immediate movement of people out of an affected area due to imminent threat to life. Choosing to stay could result in the loss of life. Staying may also impede the work of emergency personnel. Due to the changing nature of the emergency, the Immediate Evacuation Order may be the only warning people in the affected area(s) receive.

Public Assembly Point: A temporary assembly area that provides a safe haven for evacuees to assemble until conditions subside and evacuation routes are accessible, or for evacuees who otherwise cannot evacuate the community on their own and need assistance to be moved to a shelter. Note: Evacuees who are capable of evacuating on their own to designated shelters or other areas outside of their community do not need to go to Public Assembly Points unless directed by public safety officials.
