

**2005
BUTTE COUNTY
AGRICULTURAL CROP REPORT**

FARM CITY CELEBRATION

The Farm City Celebration is a collaborative effort of the Chico Chamber, California Women for Agriculture, Butte County Cattlemen, Butte County Cattlewomen, Butte County Ag Commissioner's Office, Butte County Farm Bureau, UC Cooperative Extension and the CSU, Chico, College of Agriculture, Farm Staff and CSU, Chico and Butte Community College agricultural student organizations. In recent years the calendar of events included the Farmers' Fair at the Chico Mall, the bus tour, Dog Days of Fall - dog walk at the CSUC Farm, the Progressive Farmer Farm Safety Day Camp & Kids Day at the Farm, the Harvest Dinner Dance, and local restaurants featuring local products.

Over the past 25 years Farm City has grown and events have been added and changed. One of Farm City's first events was free samples of local commodities given out at banks by California Women for Agriculture members. The bus tour has been a long standing and very popular Farm City event for many years. Each year the bus tour focuses on a different geographic section of the north state and visits 4 to 6 farms or agricultural businesses in that area. The Children's Farm Fair at the CSU, Chico College of Agriculture Farm is attended by 500 to 600 local 3rd graders. The students visit eight to ten stations where they learn where their food comes from, what it takes to make the variety of food and fiber that we enjoy. Additionally, for the past couple of years the kids have learned food safety, ATV safety, and animal safety. The Dog Days of Fall event which allows participants to see the different areas and learn about Farm while walking with their best friend. The Harvest Dinner Dance is always a fun way to raise the money needed to fund other worth learning projects of the Farm City Celebration year. The Harvest Dinner Dance is held at the Silver Grounds and is a celebrate the close Celebration year. The Harvest Dinner Dance is always a fun way to raise the money needed to fund other worth learning projects of the Farm City Celebration year.

Farm City usually gives out three awards per year; they include Agriculturalist of the Year, Agri-Business of the Year and Agricultural Service of the Year.

LOUIE B. MENDOZA, JR.
Assistant Agricultural Commissioner/
Weights and Measures

A.G. Kawamura, Secretary of
California Department of Food and Agriculture

The Honorable Butte County Board of Supervisors

Curt Josiassen, Chairperson
Bill Connelly Jane Dolan
Mary Anne Houx Kim Yamaguchi

Paul McIntosh, Chief Administrative Officer,

In accordance with provisions of section 2279 of the California Food and Agriculture Code, I am submitting the sixty-fourth annual crop report of agricultural production and agricultural value in Butte County for the 2005 calendar year.

This report is a summary estimate of the acreage, production and gross value of Butte County agricultural products. The values presented in this report are gross values only, and do not reflect net farm income or costs of production and marketing.

The estimated gross value of agricultural production in Butte County for 2005 totaled \$439,690,000. This is an 81.4 million dollar increase over the 2004 gross value total of \$358,274,000. The total increase in gross value of agriculture during 2005 is 35 percent above our county 10-year average of \$326,097,000.

I wish to extend my appreciation to the many producers, processors and agencies, both private and governmental, and to all the staff for their efforts in the compilation of this report.

Respectfully submitted,

Richard B. Price

Richard B. Price
Agricultural Commissioner

2005 SUSTAINABLE AGRICULTURAL REPORT

This report summarizes the varied activities conducted and the methods used to prevent and control the spread of exotic pests in Butte County.

The pest detection, pest exclusion, and pest eradication programs serve to protect the county from infestation of introduced pests. Through monitoring and quick response to small infestations, damaging pest populations can be controlled before they require a large-scale response.

Biological control provides a method of sustainable pest control with a minimum impact to the environment.

<u>Pest</u>	<u>Agent/Mechanism</u>	<u>Scope of Program</u>
<u>PEST EXCLUSION</u> Exotic Pests	11,982 Shipments inspected for live pests, including Glassy-winged Sharp Shooter and Sudden Oak Death.	
<u>PEST DETECTION</u> Gypsy Moth, Med. Fly, Japanese & Khapra Beetle, Oriental, Melon & Glassy-winged sharpshooter.	993 Traps placed throughout the County to detect the presence of these pests.	
<u>PEST ERADICATION</u> Spotted Knapweed Diffuse Knapweed Hoary Cress Perennial Peppergrass White Horsenettle Skeleton Weed Dyer's Woad	Controlled by a combination of mechanical and chemical methods.	52 Sites spread throughout the county
