II. Informational Non-Action Items

A. Self-Audit Results

Mike reported on the use of the California Environmental Reporting System (CERS) by businesses and the CUPA. He also shared that CUPA inspections and reports are now completed at the time of inspection using computer tablets for greater efficiency.

B. Report of Facilities Past Due for Inspection:

1. Doug summarized the self-audit results for the group.

2. The group suggested that the audit include a narrative about what the CUPA has done to include oversight of agricultural handlers.
- C. State Audit Information Request
1. Doug shared the information request from CalEPA for the triennial state audit. A discussion followed concerning public disclosure of sensitive information regarding regulated facilities and where hazardous materials are stored. Doug reported that this information is available to fire districts but not to the public.
- D. Food Study Update
1. Brad reported on the process that the county is following to review and update fees. When a fee proposal has been completed, it will be shared with the advisory group before it goes to the Board of Supervisors.
- E. Agricultural Inspection Program Progress Report
1. Brad shared the Agricultural Exemption document prepared by Tom Parker. Brad reported that he sent the document to CalEPA for review in July 2016 and had not heard back from them and that they have been notified by email that the CUPA will move forward with implementation of the exemption.
 2. Russ reviewed the exemption as said that he did not see a problem with it and if he was sent a copy he would share the exemption with other emergency responders to assure that they have no problem with it provided the CUPA does an original inspection of USTs.

III. Agenda Preparation for Next Meeting

The next meeting will be scheduled when it is determined that there are new items that require the advisory group's input.

IV. Adjourn

The meeting adjourned at 11:15 a.m.
