

INTRODUCTION

This report is a compilation of information related to the monitoring activities in Butte County and includes groundwater hydrographs from “key wells” within each hydrologic sub-area. Groundwater hydrographs for the other wells monitored in the County are available on the DWR website at <http://wdl.water.ca.gov>.

Most of the material contained in this report was excerpted directly from a draft report titled Butte County Groundwater Analysis, dated December 2000, which was prepared by the Department of Water Resources, Northern District. This was done to achieve a level of consistency between the findings of the BBWUA, and those of the Butte County Inventory Analysis, which was prepared cooperatively by Butte County Department of Water and Resource Conservation, Camp, Dresser and McKee, Inc., and the Department of Water Resources in March 2000.
