

Access SECURE MAIL™

ELECTRONIC MAIL IS AVAILABLE TO BUTTE COUNTY INMATES

Friends and relatives are now able to send electronically transmitted computer messages to members of our inmate population through *Access SECURE MAIL™*. Similar to e-mails, electronic messaging eliminates the need for stamps, stationary, envelopes, and trips to the post office. For a small fee of 55¢, about the same price as a stamp and envelope, the jail staff will print the message and deliver it directly to the inmate.

Besides text-based messages, photographs can also be sent to inmates using *Access SECURE MAIL™*. For a fee of \$1.05 the photo will be downloaded from the Secure Mail website, printed, and delivered to the inmate.

Access SECURE MAIL™ service allows the Customer to log into our secure website and create a membership. Similar to a Yahoo or Hotmail account, the membership is free to the Customer. Once membership is established, the Customer is able to log-in using our secure website and view their individual mailbox which includes all received messages and archived sent messages.
