

Positive Practices to sustain a healthy Urban Watershed

Butte County Water and Resource Conservation Department Watershed Outreach and Education Program

December 10, 2009 - Urban Workshop

The underlying theme of this workshop is three-fold:

- Conservation on many fronts
- Positive practices to sustain a healthy watershed
- Local programs that help you make a difference now

It is our hope that you will leave here tonight with one tip that you can easily implement in your household to help improve the health of our local watersheds.

The workshop begins at 4:30 pm. Each speaker will make their presentation and 5 minutes for Q & A. Additional questions may be asked during the break and at the conclusion of the program.
