OBSERVATIONS AND CORRECTIVE ACTIONS

- 5- Develop a written handwashing policy as to when food handlers are instructed to wash hands.
- 13- Steamed milk observed in pitcher in refrigerator. Steam only enough milk for one drink/ order at a time—discard leftover milk rather than resteaming milk.
- 15- A few cans of home canned food (okra, pickles) observed in refrigerator—reportedly food handler's personal food.
- 27- Temperatures of potentially hazardous foods (chocolate milk) reportedly not being checked at time of delivery—use probe thermometer to check temperatures.
- 33- Replace missing trim strip on front of cabinet below espresso machine.
- 34- Replace broken, missing utensil sink drain plugs so that utensil sink can compartments can be filled for dishwashing.
- 35- Clean major equipment (ie: refrigerators, utensil sink) of dried residues and some food debris.
- 40- a) Change out sanitizer (for cleaning rags) when water becomes turbid.
b) Do not use cleaning rags for wiping countertop (general use) and then use the same cleaning rags for wiping down food processing equipment (ie: espresso machine wands). Cleaning rags used for food processing equipment shall be used for no other purpose. Develop a policy for cleaning rag usage.
- 41- Repair leaking faucets at both handsink and utensil sink.
- 44- a) Clean up/ organize storage in back storeroom/ area.
b) Provide a hanger for air drying/ storage of mop in between uses.
c) Remove/ relocate bottles, containers for recycling which are currently stored on utensil sink drainboard.
