

**Child Health & Disability Prevention (CHDP) Program  
Oral Health Educational Resources  
For Children and Teens  
(6 – 20 years)**

# **Child Health & Disability Prevention (CHDP) Program**

## **Oral Health Educational Resources**

### **For Children and Teens (6-20 years)**

A healthy mouth is part of a healthy body. The *Oral Health Educational Resources Guide for Children and Teens (6-20 years)* is intended for use by CHDP providers to help access various oral health educational materials for patients within this age group. This list was compiled by the CHDP Bay Area Regional Dental Subcommittee and contains ordering information, description of the materials, and targeted age groups to better direct the CHDP provider to the specific topic of interest. Materials can be used as a supplement for anticipatory guidance discussions.

An oral health education resource guide for 0-5 years is in development and will be available mid-to-late 2010. Until then please check the First 5 Oral Health web site at <http://www.first5oralhealth.org> for information and resources.
