

County Service Areas and Permanent Road Divisions

A County Service Area (CSA) or Permanent Road Division (PRD) is a type of dependent special district governed by the Board of Supervisors. CSAs and PRDs are established as a mechanism for counties to furnish municipal-type services to unincorporated areas beyond those uniformly provided countywide. Only residents who benefit from services provided by the CSA or PRD pay for the services received. In Butte County, CSAs and PRDs are typically formed to provide services to defined areas, such as a subdivision, during the project approval process, although some CSAs provide services countywide. Many of the CSAs within Butte County are divided into zones of benefit. A zone of benefit is a geographic area within a CSA that provides a particular service or services to the parcels within that area.

Butte County currently has 60 CSAs and 4 PRDs which provide the following municipal services:

- Street Lighting (51 CSAs / 3 PRDs)*
- Stormwater Drainage and Detention (40 CSAs / 4 PRDs)*
- Fire Protection (13 CSAs)*
- Sewer (6 CSAs)*
- Road Maintenance (3 CSAs / 4 PRDs)*
- Community Swimming Pool Funding (2 CSAs)*
- Water Quality Monitoring (2 CSAs)*
- Snow Removal (1 CSA)*
- Police (1CSA)*
- Landscaping Maintenance (1CSA)*
- Funding for Ambulance Services (1 CSA)*
- Funding for Animal Control (1 CSA)*

Most CSAs and PRDs in Butte County are managed by Butte County Public Works. For special districts under management by other departments, the managing entity is noted for reference.
