

Greenhouse Permit Requirements

The purpose of this handout is to clarify permitting requirements for the various types of greenhouses

- Pre-manufactured agricultural hoop structures that do not exceed 24' in width and 2,000 sq. ft. in area
 - Reduced permit fee (1-hour plan review fee)
 - No alterations to pre-manufactured design. A copy of the manufactured specifications are required
 - Maximum travel distance to an exit of 75'
 - No electrical, mechanical, or open flame allowed
 - Minimum setbacks to property lines per current zoning (50' minimum setbacks to property lines and other structures when located in the SRA), site plan required.
 - Minimum setbacks to other structures per current CA Building Code
 - Cannot be used to cultivate illegal crops
 - No active Code Enforcement violations on parcel
 - Shall not be a place of employment where agricultural products are processed, treated or packaged, nor shall it be a place used by the public. May be used by employees only related to the cultivation of crops
 - Declaration of use form required. See page 2 of 2.

- Detached residential greenhouses 120 sq. ft. or less
 - Exempt from building permits and fees
 - Mechanical, electrical, or plumbing requires a separate permit

- All other types of greenhouses not meeting the two categories listed above
 - Subject to the standard permit process
 - Subject to current adopted permit fees

OWNER'S DECLARATION OF USE FOR A PRE-MANUFACTURED AGRICULTURAL HOOP STRUCTURE

I/we the undersigned hereby apply for a 'pre-manufactured agricultural hoop structure' permit registration and acknowledge its limited to the uses listed below:

Agricultural Hoop Structure Definition: A pre-manufactured agricultural structure that maintains a specialized sunlit environment used for and essential to the cultivation, protection or maintenance of plants and that meets items 1-10 below:

1. The structure is prefabricated and shall have no alterations to manufactured plans.
