About the Consumer Perception Survey

The Department of Health Care Services (DHCS) utilizes the Mental Health Statistics Improvement Project (MHSIP) tool to collect Consumer Perception Survey (CPS) data from patients receiving mental health services from publicly funded mental health programs in California. Survey forms include Adults (ages 18-59), Older Adults (ages 60+), Youth (ages 13-17) and Family/Parents of Youth. The survey is administered once each year in Spring for a period of five (5) business days. DHCS has contracted with the University of California Los Angeles – Integrated Substance Use Programs (UCLA-ISAP) to scan and process the submitted forms and aggregate the data.

The goal of this survey is to collect data for reporting on the federally determined National Outcome Measures (NOMs). Reporting on these NOMs is required by the Substance Abuse and Mental Health Services Administration (SAMHSA), and receipt of federal Community Mental Health Services Block Grant funding is contingent upon the submission of this data.

In accordance with DHCS, the Butte County Department of Behavioral Health (BCDBH) administered CPS during the week of June 21, 2021 through June 25, 2021. During this week, there were 538 surveys returned. Surveys in which the client declined to participate were counted, but not included within the charts of this report.

Adult

General Services Quality (Adult)

The chart below represents the aggregated responses from the first 20 questions of the Consumer Perception Survey (adult portion). The first 20 questions correspond to the general quality of service adult clients received at Butte County Department of Behavioral Health.

General Services Quality - (Adult)

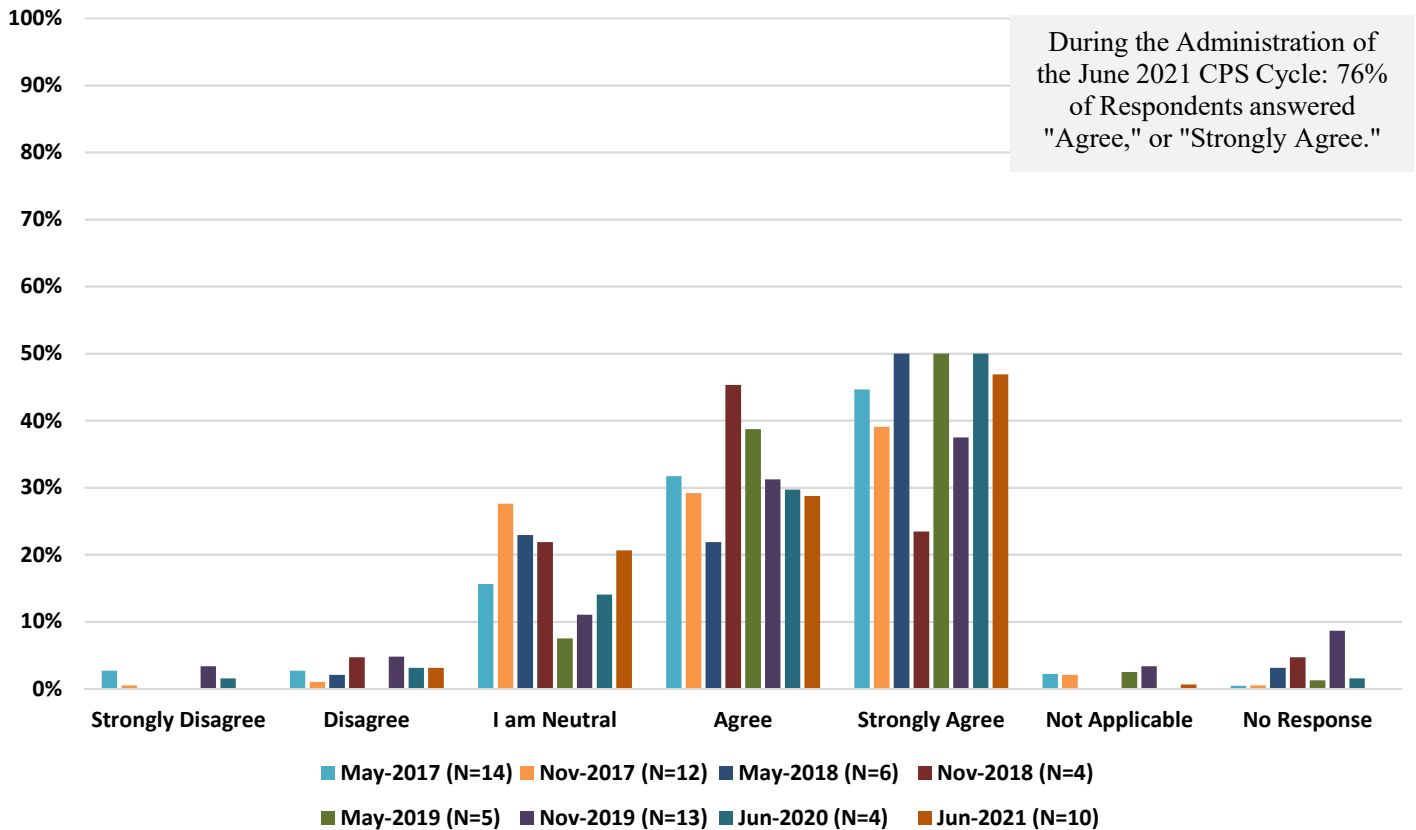

- I like the services that I receive here.
- If I had other choices, I would still get services from this agency.
- I would recommend this agency to a friend or family member.
- The location of services was convenient (parking, public transportation, distance, etc.).
- Staff were willing to see me as often as I felt it was necessary.
- Staff returned my calls within 24 hours
- Services were available at times that were good for me.
- I was able to get all the services I thought I needed.
- I was able to see a psychiatrist when I wanted to.
- Staff here believe that I can grow, change and recover.

- I felt comfortable asking questions about my treatment and medication.
- I felt free to complain.
- I was given information about my rights.
- Staff encouraged me to take responsibility for how I live my life.
- Staff told me what side effects to watch out for.
- Staff respected my wishes about who is, and who is not to be given information about my treatment.
- I, not staff, decided my treatment goals.
- Staff were sensitive to my cultural background (race, religion, language, etc.).
- Staff helped me obtain the information I needed so that I could take charge of managing my illness.
- I was encouraged to use consumer-run programs (support groups, drop-in centers, crisis phone lines, etc.)

As a Direct Result of Services (Adult)

The Chart below corresponds to the aggregated responses of the 16 questions regarding direct effects of services in clients' daily life.

As a Direct Result of Services - (Adult)

21. I deal more effectively with daily problems.
22. I am better able to control my life.
23. I am better able to deal with crisis.
24. I am getting along better with my family.
25. I do better in social situations.
26. I do better in school and / or work.
27. My housing situation has improved.
28. My symptoms are not bothering me as much.
29. I do things that are more meaningful to me.
30. I am better able to take care of my needs.

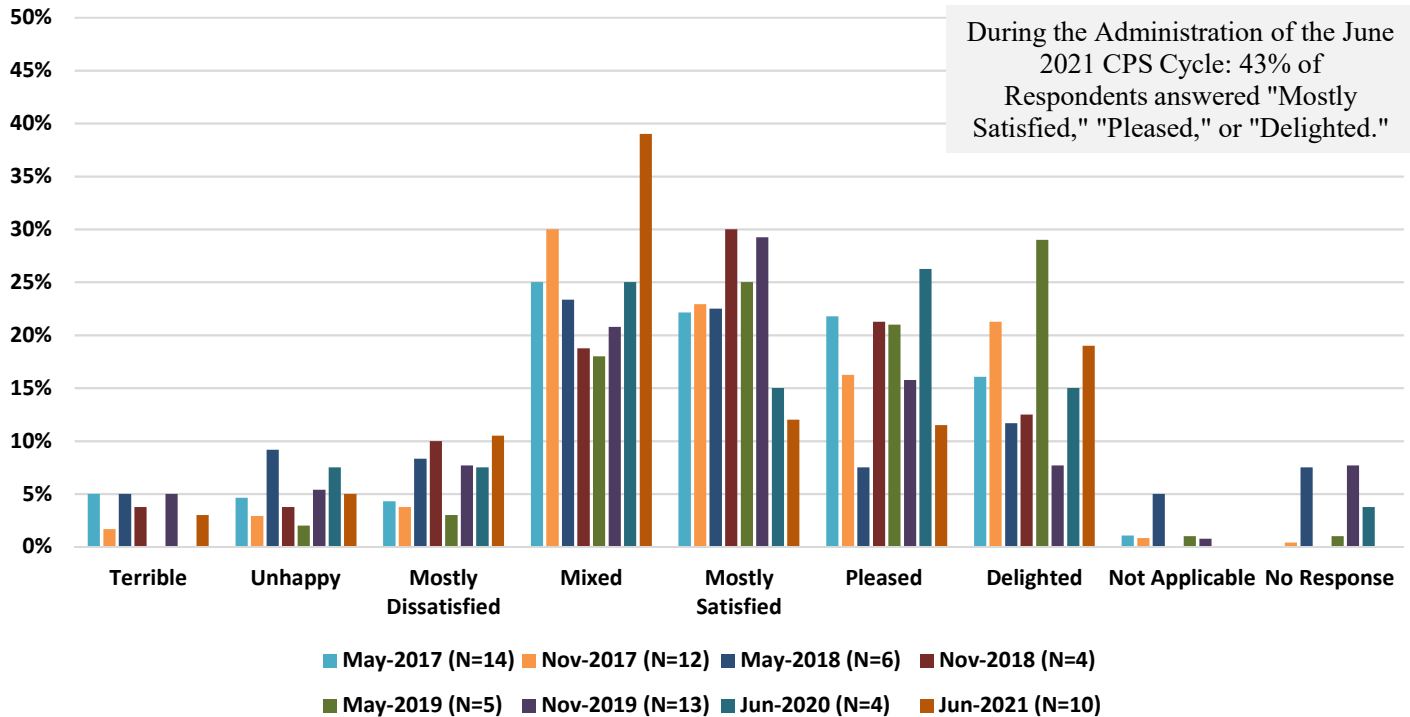

31. I am better able to handle things when they go wrong.
32. I am better able to do things that I want to do.
33. I am happy with the friendships I have.
34. I have people with whom I can do enjoyable things.
35. I feel I belong in my community
36. In a crisis, I would have the support I need from family or friends.

Life Satisfaction – Overall (Adult)

The charts below represent the aggregated responses to questions regarding life satisfaction.
