

24-34.1 Butte Creek Canyon Overlay Zone (WORKING DRAFT –October 13, 2016)

- A. Purpose:** The Butte Creek Canyon (-BCC) Overlay Zone preserves and protects the uniquely valuable qualities of Butte Creek Canyon which is a significant resource of Butte County. The purpose of the –BCC Overlay Zone is to facilitate the protection and preservation of the historical and ecological foundation of Butte Creek Canyon, including the survival of endangered wild salmon, steelhead and other sensitive plants and animals such as the East Tehama Deer herd, preservation of historical sites and ecological preserves, and the optimum balance of recreation and residential use.
- B. Administrative Relief.** If the application of the –BCC Overlay Zone inhibits development of a primary dwelling, as allowed by the base zone, to the extent that it cannot be permitted, the Director of Development Services shall determine a feasible and appropriate building site based upon existing site constraints and the –BCC Overlay Zone’s land use development standards.
- C. Applicability:**
1. The –BCC Overlay Zone applies to the Butte Creek Canyon area, as shown by the –BCC Overlay Zone Map.
 2. The –BCC Overlay Zone may be combined with any base zone.
 3. The –BCC Overlay Zone shall not require changes to existing legal uses and structures. Any expansion or modification of nonconforming uses and structures shall comply with this chapter and Butte County Code Article 22. Nonconforming Uses and Structures.
- D. Land Use and Development Standards**
1. **Public Hearings and Noticing.** When a public hearing is required in accordance with the Butte County Zoning Ordinance, in addition to the requirements set forth under Article 36, Public Notice and Hearings, which requires notice of the hearing to be mailed to all owners of real property within 300 feet of the exterior boundary of the parcel that is the subject of the hearing. Public notice shall also be provided by email to all interested parties through a list maintained by the Department of Development Services.
 2. **Hillside Development Standards.** This section does not apply in the AG (Agriculture), TM (Timber Mountain) or TP (Timber Production) Zones.
 - a. **Slope.** Development in areas with a slope of greater than 15 percent shall be permitted only when an alternative Development Area with a slope of less than 15 percent is not available on the parcel, or as otherwise permitted by the Director of Development Services pursuant to Section 24-34.1 B. Administrative Relief.

- b. **Vegetation Removal.** Removal of vegetation outside of a Development Area as defined in Article 42 (Glossary) shall not be permitted, except under the following circumstances:
- i. Vegetation removal required to comply with defensible space requirements set forth in Public Resources Code Section 4290 (Fire Safety Regulations).
 - ii. Timber harvesting permitted under a “Less than Three-acre Conversion Exemption” approved by CAL-FIRE. Such timber harvesting shall not be conducted during the rainy season (November 15 to April 1).
 - iii. Harvesting of dead, dying or diseased trees in accordance with CAL-FIRE regulations.
 - iv. Removal of hazard trees within 150 feet of a structure permitted under an exemption approved by CAL-FIRE.
 - v. Routine agricultural grading as defined under Chapter 13, Article 1. Grading, Section 13-5 (g).
 - vi. Non-native and invasive plant eradication.
 - vii. Pedestrian walkways and trails that are a part of the Development Area.

3. Clustered Development. Clustered Development as allowed by Article 18, Clustered Development, shall be prohibited within the –BCC Overlay Zone.

4. Butte Creek Canyon Ridgeline Development. The specific canyon ridgelines subject to this section are shown on the –BCC Overlay Zone Exhibit. Ridgelines on the –BCC Overlay Zone Map are shown in their approximate location. A site review is required to determine specific locations (see below). In order to preserve views of designated canyon ridgelines, development on either side of designated canyon ridgelines shall comply with the following minimum development standards:

- a. Buildings less than 25 feet in height: A 100 foot building setback is required from either side of the designated ridgeline.
- b. Buildings equal to or greater than 25 feet in height: A 150 foot building setback is required from either side of the designated ridgeline. Walls and fences pursuant to Article 13, Walls and Fences: A 100 foot building setback is required from either side of the designated ridgeline.
- c. The specific location of the designated canyon ridgeline shall be determined through an on- site review by the Department of Development Services.

5. Historic, Cultural, and Archeological Sites

- a. Prior to any building permit issuance or discretionary approval at the following recognized sites, the Department of Development Services shall consult with the California Historical Resources Information System (Northeast Information Center) at CSU Chico for recommendations and mitigations necessary to preserve historic, cultural and archeological resources:
 - i. Nicholl Family Cemetery in Helltown
 - ii. Boneyard Flat in Helltown
 - iii. Centerville Schoolhouse
 - iv. Centerville Cemetery
 - v. Honey Run Covered Bridge

6. Heavy Equipment Storage. This section does not apply in the AG (Agriculture), TM (Timber Mountain) or TP (Timber Production) Zones.

- a. The storage of heavy equipment such as graders, backhoes, bulldozers, containers, excavators, and similar equipment, and heavy vehicles such as dump trucks, semi-tractor trailers, and similar vehicles having an un-laden weight of 10,000 lbs. or more shall be limited to two pieces per parcel in the FR (Foothill Residential) and RR (Rural Residential) zones. This section does not apply to heavy equipment or vehicles used primarily for on-site maintenance and/or on-site agricultural activities, or recreational vehicles.
- b. Heavy equipment storage yards in the FR (Foothill Residential) and RR (Rural Residential) zones shall be setback 100 feet from County roads and screened to prevent view from the road through the use of a wall, fence or vegetation. Walls and fences used for this purpose shall comply with Butte County Code Chapter 24, Article 13. Walls and Fences.

7. Watershed Protection. This section does not apply in the AG (Agriculture), TM (Timber Mountain) or TP (Timber Production) Zones

- a. **Land Use Regulations.** Zoning amendments that propose to allow for the creation of additional parcels (exceeding amounts allowed under the November 6, 2012 Zoning Map) shall not be allowed, unless the Board of Supervisors, through its police powers, acts to amend this section of the Zoning Ordinance to allow such zoning amendments.
- b. **Maximum Impervious Surface.** Impervious surfaces are those surfaces that prevent normal water infiltration and/or cause runoff to other areas, such as asphalt, concrete, and structures (surfaces that are 100 percent impermeable to water

percolation). For new development within the –BCC Overlay Zone, impervious surfaces shall be limited in accordance with the following standards:

- i. Parcels one-acre in size or greater. Impervious surface limited to 15 percent of the parcel’s total size up to a maximum of 1.5 acres, whichever is less.
- ii. Parcels less than one-acre in size, see Table 24-34.1-1, below.

Parcel Size	Maximum Impervious Surface
> 1/2 acre - < 1 acre	6,530 sq. ft.
> 1/3 acre - ≤ 1/2 acre	5,800 sq. ft.
> 1/4 acre - ≤ 1/3 acre	4,900 sq. ft.
> 5,000 sq. ft. - ≤ 1/4 acre	3,250 sq. ft.

- iii. Road surfaces and other areas such as patios and driveways shall not count as being impervious if they are surfaced with gravel or are finished with pervious pavement or asphalt.

c. **Vegetative Buffers.** In addition to the requirements set forth under Article 16 (Riparian Areas), vegetative buffers shall be maintained on all sides of water bodies as follows:

- i. Perennial and intermittent rivers and streams: 100 lineal feet.
- ii. For rivers and streams, minimum buffer distances shall be measured from the annual average stream bank.
- iii. All structures, grading, excavation, removal of trees, use of fertilizers and pesticides, sewage disposal, and paving, excepting those uses set forth under Section 24-78 A. Permitted Activities, and Section 24-78 B. Conditionally Permitted Uses, are prohibited within buffer areas.

d. **Septic System Regulations.** Leach fields, septic tanks, and chemical toilets shall be setback a minimum of 100 feet in addition to the required vegetative buffer under Subsection 7.c. Vegetative Buffers.

e. **Erosion Control.**

- a. An erosion and sediment control plan, pursuant to Butte County Code Section 13-10, shall be approved by the County prior to issuance of a building permit and subject to the following additional requirements and building standards:

- i. Erosion and sediment control plans shall not be required for permitted accessory uses and structures defined under Butte County Code Section 24-156.
- ii. The erosion and sediment control plan shall be developed by a professional civil engineer registered by the State of California.
- iii. The plan shall identify measures to prevent sediment and other pollutant discharges from reaching watershed drainages and streams, and shall address both interim (during construction) and final (post construction) erosion control measures.
- iv. All driveways proposed for new home sites shall be surfaced with at least two inches of Class 2 aggregate base, unless required by the County to be developed to a higher standard.
- v. Soil disturbance shall not be conducted during the rainy season (November 15 through April 1). The County may require financial security to ensure that control measures are implemented and maintained.
- vi. All areas where land clearing has been completed between April 1 and November 15 shall be re-vegetated, hydroseeded, mulch protected, or otherwise stabilized no later than December 1.
- vii. Site work shall be limited to the permitted development area, and shall preserve natural topography and vegetation at the site to the greatest possible extent.

D. Coordination with Other Regulatory Agencies. All required permits from the California Department of Fish and Wildlife, the U.S. Army Corps of Engineers, the California State Regional Water Quality Control Board, the Central Valley Flood Protection Board, or other applicable agencies, including any permit required under an approved Habitat Conservation Plan, shall be obtained prior to, concurrently with, or as a condition of, the approval of any County permits for development within the -BCC Overlay Zone. Evidence of approval or pending approval of any such permit shall be submitted to the County, including all appropriate supporting materials, environmental documentation, and studies.
