

CAMP FIRE REBUILD

ITEMS NEEDED FOR ENVIRONMENTAL HEALTH REVIEW

To Get Your Building Permit **AFTER** the Debris Removal Clearance is Given

- 1) Provide a Camp Fire Septic System Inspection Report, completed by a service provider certified by Butte County, see "Certified Professionals" at;
http://www.buttecounty.net/ph/Environmental-Health/LandUse_Wastewater/WastewaterProgram
- 2) If the parcel is served by a private well and it was damaged or compromised by the fire, it is required to be sampled for total and fecal coliform bacteria and the laboratory sample results submitted to the Butte County Environmental Health Division. Information on water sampling and analytical laboratories is available at;
<http://www.buttecounty.net/ph/Environmental-Health/DrinkingWater/WaterSampling>

Please contact Environmental Health if you have questions regarding this matter.
