Cases include suspect, probable and confirmed cases with episode date in the calendar year unless otherwise noted

Episode date is date of onset or closest approximation from available reporting data

Data are based upon Butte County surveillance and includes suspect cases. Numbers may vary from CDPH data.

* 2014 case counts are an estimate pending de- duplication of cases by CDPH

** includes asymptomatic blood donors

*** increase in cases is attributable with new testing methodology and increased testing at an area hospital

+ by year of report
