Dear Neighbor:

I have applied for a Butte County permit to drill a large diameter well to serve the needs of my property. To comply with the Butte County Code I wish to consider the location of your well(s) relative to the location of my new well. To assist me and to provide a separation between your well(s) and my well please within seven (7) days to complete and return to me the reverse side of this letter.

Although the County Code does not require a reply, your prompt response will help to maintain minimum spacing distances between wells as a means to limit well interference. By providing the information requested you will also assist to maintain records necessary to protect your own well(s).
