SITE PLAN WITH REQUIREMENT CHECKLIST

GENERAL INFORMATION

Your site plan may be reviewed by various departments: Development Services, Public Works, CDF, Agriculture Commission, etc. so you will need to include information to satisfy numerous agencies.

- > Please label all elements as clearly and completely as possible
- ➤ Site plans must be fully dimensioned and clearly drawn on clean paper, 8.5′ x 11 ′ minimum or up to 11′ x 17′ maximum
- ➤ Blow-ups or insets should be used to provide more detail where required. A scaled site plan may be required, if necessary for septic system permit or other plan review

	GENERAL INFORMATION ITEMS REQUIRED		ROAD FEATURES, INCLUDING								
	Owner's name Assessor's Parcel Number		Location and name of frontage road(s)								
	North arrow		Locate of driveways								
	Property lines with dimensions: As shown on the assessor's map or parcel map Distances between improvements and		Right-of-way Easements ALL WATER RELATED FEATURES, INCLUDING:								
<u> </u>	from property lines Setbacks Any features, such as cliffs or areas of slope: Include direction and		Flood zone Septic/sewage disposal systems (original and replacement) Wells								
_	approximate degree of slope EXISTING/PROPOSED ONSITE IMPROVEMENTS Buildings and other structures		Waterlines Springs Creeks or streams Space and draining ditches
