Copy of C.D.L.

California Health and Safety Code: 25250.7.

No person who generates, stores, or transfers used oil shall intentionally contaminate used oil with other hazardous waste

Illegal disposal of contaminated oil can result in prosecution and fines up to \$25,000 dollars per day per violation.

Used oil includes spent lubricating fluids that have been removed from an engine crankcase, transmission, gearbox, or differentials.

Prohibited materials include but are not limited to: Water, brake fluid, diesel fuel, sludge, gasoline, volatile hydrocarbons, paint thinner, paint, solids, cooking oil, parts cleaners, leaves and any product deemed hazardous or non-hazardous waste not associated with waste oil.

I hereby certify that the material deposited with the Neal Road Recycling & Waste Facility meets all State and Federal requirements to be collected, transported and treated as waste oil. I acknowledge that depositing contaminated waste oil may subject myself, the generator or both to any fines, fees or cleanup charges for any costs associated with addressing contaminated oil.
