Subject: Every Student Should Receive Some Scholarship Funding.

Hi there,

This is that wonderful time of year when students find out which into college(s) they've been admitted... and then the harsh reality of paying for it kicks in.

Our mission is to help students cope with this, and we hope you'll help.

We're working on building the ultimate scholarship database at OutsideScholarships. We're still working on populating it and optimizing its search features, but we wanted to let you know about some of our favorite scholarships that we've found so far, in hopes that you'd share them with your audience (maybe here: <http://www.buttecounty.net/bclibrary/TeenWebResources.aspx?>):

2015 Society of Women Engineers Scholarships

Thanks for all you do to help empower the public in the pursuit of education :)

All the best,  
Joe
