As a new novelist, I appeal to your curiosity. Please sample my writings, available from Soul Mate Publishing (New York) and Champagne Books (Canada) at Amazon.com and, if so inspired, spread the word!

An avid reader, savoring several genres, I tackled each, blending them into my seven novels, four of which are also available in paperback from Barnes & Noble.

Just type Wanda A. Wallace fiction and the array will pop up for your exploration.

Enjoy the Fall weather, just around the corner,
Wanda
